5. What's next? + Important informations

After you have sent out your meeting requests they will have to be accepted by the representatives, once accepted you will be able to see the meetings in your agenda.

Note that there is a chance of your request getting declined (for example when more than one person tries to schedule a meeting with the same person at the same time).

In this case you will have to try to schedule the meeting again at a different time slot. So be sure to always check the outcome of your requests.

The participants have to schedule the meetings with the universities and funding agencies. The universities and funding agencies will mostly not be scheduling meetings with the participants.

The video-call platform is "Spreed.me", so please install the program and use the Chrome browser in order for everything to work smoothly.
